

Directions for Photogate

1. Connect the CBL, photogate, and calculator as instructed.
2. On the calculator open the "DATAGATE" program.
3. Select **1:Setup**
4. Select **2:Gate**
5. When prompted, input **1** then press **ENTER**
6. Select **1:OK**
7. Select **2:Start** to begin measurements.

NOTE: Once you press start, the calculator will take a measurement any time the photogate is blocked. Therefore, you should record the desired data off the calculator before reloading the ball.
