* Kabir -

- man on web.

* β^4 running modes: set at beginning of run. P36 manual.
SOFT-TRANSIENT - one single sample. - ext trig.?
SOFT-CONTINUOUS - continuous capture. - start trig. initlky-capture
GATED-TRANSIENT - single sample gated
TRIGGERED-CONTINUOUS -

p45: repeating gate mode. - minor mode

DT100rc = GUT (remote control). (DT100RC FAQ)

* IRAKLI: switch to different clocks:

128 $\rightarrow$ 10, set parameter to average.

input sampling rate, output rate
8-128 kHz 4x slower, averaged.
from ADC chip.

need to set clear parameter to take advantage of it.

p. 150 §24.1 accumulator
