

PHYSICS Lab Information

Fall 2012

PHY 210, 211, 212, 213, 241, 242

**The Lab Schedule will begin on the week of 27Aug 2012 with a
General Lab Orientation**

SYLLABUS: Go to Blackboard, This link will provide your lab syllabus (Available on 24 Aug 2012) and serve as your primary information link. Read the syllabus carefully prior to the first day of lab, ensure full understanding of your assignments and the expected academic standards for your course.

LAB MANUALS will be available at “Johnny Print” 547 South Limestone (Next to Pizza Hut) Friday 24 Aug 2012 after Noon. Each Student Must have their own. Reproduction of the manual is not authorized.

CALCULATOR Requirements: In General the TI -84+, 84+Silver offer the best all around solution and are highly recommended. The TI 83 series will also work. The 85,86,89,92 offer some sophisticated subroutines but are not compatible with some the experimental interfaces we will use.

The TURNINGPOINT classroom response system will be used in all lab sections for administering quizzes, diagnostics and obtaining feedback. The Turning Technologies RF transmitter is required for all Labs. Register your transmitter on Blackboard before Orientation or an additional Registration will be conducted during your Orientation.

**Respectfully
S. L. Ellis
Academic Coordinator**
